

**RENEWAL SERVICES**

After

Before

Refurbish existing panels, seating and files to extend their useful life. Services include panel and seating re-upholstery, fabric cleaning and electrostatic painting of metal components, e.g., pedestals, files and other storage units.

Refurbishing existing furniture can be done at a fraction of the cost of buying new.

Panel refurbishing includes replacing worn or dated fabric and replacing or painting trim. Panel height and width can be reduced to accommodate changing workstation layouts.

Reupholster seating using fabric, vinyl or leather to create like-new office seating.

Clean & protect panel and seating fabric using CFR technology to remove stains in fabric and apply fabric protection to help prevent future staining.

Electrostatic painting of files and cabinets brings new life to metal surfaces.
